

The Portable

# cargo caddie

The World's Ultimate Light Utility Carry-All

U.S. Utility Patent Pending

## Introducing...

**The Cargo Caddie.....** The most innovative, functional, and versatile concept ever produced in a golf cart accessory. Golf cart owners now can have both a back seat and a light weight, inexpensive cargo box that will carry just about anything.

The Cargo Caddie is constructed of a light weight, but durable, hard plastic that will hold up for years. It also comes with four custom made velcro straps to hold the product in place. For replacement straps, please visit

The Cargo Caddie was developed not only to be functional, but easy to use and install. The Cargo Caddie will fit any fold down back seat package made for any golf cart. It can also be used just as easy on the roof of your golf cart.

*Installs in seconds:*

Simply wrap straps around roof or backseat and pull tight.
